4 ♠ by North

the rest of the tricks are yours because you can run the ♣ suit without anyone trumping in.

Of course you open 1 ♠. Partner responds 2 ♣.

With 17 points and a 6-card suit you jump to 3 ♠. Partner bids the game.

North plays 4 ♠. East leads the ♥ Q.

North plays 4 ♠. East leads the ♥ Q.

Losers: ♠ 1 : ♥ 1 : ♦ 2 : ♣ 0 : Total = 4

You have plenty of ♣ winners in dummy but you must be careful because there are no outside entries. You win your ♥ A and play ♠ A and ♠ K, both defenders following suit. The ♠ Q is still out. To make sure you get to enjoy those ♣ winners you should continue with another ♠, forcing out the ♠ Q. The defense will now take a ♥ if they are smart, but

Think through what would have happened if you had not forced out the ♠ Q.

West would have used his master ♠ Q to ruff the second ♣, before you had taken any discards. You would still have to lose a ♥ and two ♦ s.

1NT by East

Winners: ♠ 2 : ♥ 0 : ♦ 3 : ♣ 1 : Total = 6

You only need one more winner and there are possibilities in ♠s, ♥s and ♦s. But you need to be very careful. If you watched those ♣ spots you will realize that South started with 5 ♣s (he led the ♣4, later played the ♣3). So the defenders will win 2 more ♣ tricks to go with the 2 they already have. And they can also take the ♥A and ♥K whenever they want. In other words, they also have 6 winners. So the battle is for the 7th trick for either side. If you do anything that gives them a trick they will win.

So you don't try for a trick in ♠s or ♦s. Instead you play on ♥s, the suit where they have the 2 sure winners anyway. They will win one of their high honors, take their 2 ♣s, then play either ♠s or ♦s. You win and drive out the other ♥ honor.

If you try to get a winner by taking the ♠ finesse you will give **THEM** a winner and you will go down.

If you play your three high ♦s you will set up a winner for **THEM** and you will go down.

Only if you establish your ♥s can you set up a winner for **YOU** without giving them an extra trick.

West's 1NT opening shows a maximum of 17 points. Add your 7 and you come up with only 24 - not enough to think about game. So you pass.

West would play 1NT.

Click

East plays 1NT. South leads the ♣4. North plays the ♣Q, then the ♣K, South playing the ♣3 on the second trick. North then plays the ♣2 which you win with your ♣A.

East plays 1NT. South leads the ♣4. North plays the ♣Q, then the ♣K, South playing the ♣3 on the second trick. North then plays the ♣2 which you win with your ♣A.
