NORTH has a powerhouse and knows she will reach a slam somewhere. When SOUTH supports the ♠s, it seems she has found her spot.

Blackwood tells her that SOUTH has two Aces. She can see there are 12 tricks available and decides to take a chance that SOUTH will have a thirteenth trick somewhere among his opening hand points.

She bids 7NT.

WEST is tempted to go right to 6♥ when she hears EAST's positive response. BUT, she should use Blackwood first.

It's good thing she did because EAST admits to only one Ace - they are missing two Aces.
