This is the companion to Deal 6. The cards are the same except that the ♦s and ♣s have been swapped.

Again, SOUTH has no problem as long as NORTH holds at least one Key-card. When NORTH responds 5♣, (showing one Key-card), SOUTH can pass.

That's what happens here.

WEST needs to know how many Aces EAST holds.

One way to find out would be to bid 3♠, (which is forcing), then launch Blackwood.

Another way is to bid 4♣ (Gerber) right now.

The first way is probably better but we needed a Gerber example.
