You have a good hand, but not good enough to jump-shift at your first turn. So you respond 1 ♠. Partner now jumps to 3 ♠.

Partner has 16-18 points and ♠ support. It depends on the Aces so you bid 4NT. His answer is 5 ♥.

You are missing one Ace but 6 ♠ should be a good slam.

After toying with the idea of a jump to 6NT, or perhaps a Gerber 4♣, you decide to bid 3♦. Partner rebids 4♦ and it is your turn.

Time to check for Aces. You bid 4NT and partner answers 5♥.

Tempting though it may be it is too dangerous to try 6NT. So you bid 6♦ which turns out to be laydown while 6NT would have been down 4.

You dealt this hand.

You decide to preempt 3♠ with this hand. Partner's eyes wobble and he jumps straight to 4NT.

With 1 Ace and a void in a lower-ranking suit you should bid 6 of that suit. So you bid 6♣. Partner jumps again, this time to 7♠. What do you b . . . oh never mind.

If you play Jacoby Transfers you may think of transferring partner to ♥s, then bidding the slam. but with this hand there really is no big advantage for partner being the Declarer so you decide to just take the bull by the horns. You bid a Gerber 4♣. Partner says 4♥.

Partner has only a single Ace in his 2NT opener. No slam for your team. You pass and let partner be the Declarer after all!

Your 4♣ bid is a Splinter Bid, showing an opening hand with good ♥ support and either a singleton or a void in ♣s.

With 2 Aces and a void the correct response is 5NT. Partner now bids 7♥. Notice how he cleverly figured out your void must be in ♣s.
