NORTH has 17 points and might open 1NT. But with the 5-card Major suit she prefers to open 1♠.

SOUTH has excellent ♠ support but with 11 points is not quite strong enough to insist on reaching game. Instead he makes an invitational jump to 3♠, which NORTH is strong enough to raise to game.

3NT by East

EAST has a powerful hand, but 21 points is not strong enough to start with a forcing 2♣ bid. Since he has balanced distribution he opens 2NT (20-21 points).

WEST adds her 6 points to EAST's minimum and concludes they should be in game. She expects her good ♦ suit to be useful to WEST in Notrump so she bids 3NT.

NORTH has a solid 1♥ opening, 14 points and five trumps.

SOUTH must respond with 8 points, but cannot bid either minor suit since he needs at least 11 points to bid a new suit at the 2-level. So he bids 1NT (6-10 points).

NORTH doesn't object to Notrump so she passes.

WEST has a normal 1 ♠ opening bid, 14 points and five trumps.

EAST has good 4-card support and 7 points, so she raises to 2 ♠, passed by WEST.

EAST does not consider showing the ♥s, first because she knows there is a ♠ fit, and second because she doesn't have the 11 points needed to bid a new suit at the 2-level.

6NT by North			

With balanced distribution and 16 points NORTH should open 1NT rather than 1♦.

SOUTH's response is based on simple math. He adds his 18 points to the 15 minimum that NORTH has announced and comes up with 33 points combined. This is enough for a small slam, and since he has balanced distribution he bids 6NT.

WEST is right at the maximum for a 1♠ opening bid
- one more point and he would have opened 2♣.

EAST does not have 3-card ♠ support but with 7
points must make some response. She cannot bid at
the 2-level so she says 1NT (6-10 points).

WEST is fine with Notrump so he bids 3NT.
