4NT by South			

SOUTH has a low-range 1NT opener; a balanced hand with 15 points.

NORTH has 16 points; he figures the partnership holds either 31, 32 or 33. Obviously he wants to at least reach game, but if SOUTH holds 17 points he wants to reach slam.

NORTH bids 4NT. Since this is more than game it should be clear to SOUTH that he is asking her to bid 6NT if she is at the top of her range. It is clear to SOUTH, but with just 15 points she passes.

SOUTH has a minimum 1NT opening hand -
balanced distribution with 15 points.

NORTH has 9 points, which is not enough to bid
game, but is worth making an invitational bid. So she
says 2NT.

Since SOUTH is minimum he declines the invitation
by passing.

SOUTH has 17 points, counting 1 for the fifth Club.
She has a balanced distribution so she opens 1NT.

NORTH is also balanced, so he does the math.

SOUTH has either 15, 16 or 17, and with NORTH's 18 the partnership total is either 33, 34 or 35. That is enough for a small slam, but below the 37 points needed for Grand Slam so he bids 6NT.

The partner who is first sure what the final contract should be should just go ahead and bid it. This is called "She who knows, goes."

In this deal, for example, it is NORTH who knows. She has a balanced 14 points, so when SOUTH indicates 20/21 points with his opening 2NT bid she KNOWS the partnership holds about 34/35 points.

Therefore she GOES to 6NT.

SOUTH has a balanced 20 point hand - ideal to open 2NT.

NORTH has 7 points; he knows the partnership has either 27 or 28 points so he bids 3NT.
