

Strong 2-♣ Opening

Open 2♣ on any hand containing 22 or more points.

OR, open 2♣ with a hand containing 19-21 points and with 9+ playing tricks.

There are several methods of responding. For these Deals use the 2♦ Negative for all hands with 7 or fewer points. Any other response shows 8 or more points.

The 2♣ bid is artificial; Opener's second bid describes her hand.

2NT shows a balanced 22-24 point hand

3NT shows a balanced 25-27 point hand

2 of a suit shows a 5-card or longer suit

With a very weak hand (0-3 points) Responder should bid the "second negative" at his second turn. This is usually 3♣, but if Opener bids 3♣ then it is 3♦. If Opener should bid 3♦ at his second turn the second negative bid is 3♥.

Later bidding depends on the partnership, but unless particular conventions are in use then later bidding is natural.

SOUTH expected to open 2♣, then bid 2NT at her second turn.

But NORTH, with 8 points and a balanced hand, responds 2NT, so SOUTH must adapt. She shows her minimum, balanced, 22-point hand by bidding 3NT.

Since SOUTH has just the 8 points minimum that he promised, he passes 3NT.

EAST has a balanced 23-point hand. He opens 2♣.

With 6 points and two 4-card Majors, WEST can only say 2♦.

EAST shows his minimum hand with a 2NT rebid.

Now WEST bids 3♣. This is not the second negative, but rather it is Stayman.

When EAST shows his ♠ suit WEST bids 4♠.

NORTH opens 2♣.

SOUTH should just respond 2NT, even with 11 points. The idea is to make a positive response (which forces the partnership to game level), and show extra strength later.

This time there is no need. NORTH should bid 4♣ (Gerber), and SOUTH answers 4♠ for two Aces.

Next NORTH should ask for Kings, and when SOUTH shows one King NORTH should bid 7NT.

When EAST opens 2♣ WEST has enough strength (9 points) for a positive response. But, because her suit is ♦s, she must jump to 3♦.

EAST thinks slam and uses Blackwood to discover that WEST holds one Ace.

That's all WEST needs to know to bid 6♦.
