before North can pull trumps and discard one of dummy's ♠s on his fourth ♣.

You are West. The bidding has been as shown. East led the ♦ A, dummy played the ♦ 2

Play the ♦ Q.

As soon as dummy appears you can see 3 tricks for your side. Partner surely has the ♦ K to go with his Ace and you have a certain trump trick. However, that's all you can see.

Your best hope is that East may be able to win a ♠ trick, and it may be important for the first ♠ lead to come from your side of the table.

Your ♦ Q play informs partner that you also have the ♦ J, giving him the option of underleading his ♦ K to get to your hand.

East next plays a small ♦ which you win with your ♦ J. You return the ♠ 10. This establishes East's ♠ K

♥J. Hopefully.

You are South. The bidding has been as shown. You led the ♠5, North plays the ♠10 and East wins the ♠K. To the second trick East plays the ♣10 and you must discard something.

Play the ♠J.

You know that North has no high ♠ honor or he would have played it to the first trick. So East has the ♠A Q left, plus all those ♣ tricks. You need to have South switch to a ♥ if possible.

North must be expecting to lead a ♠ back when he wins the ♣Q which you hope he holds. Your ♠J discard may make him rethink. If your ♠s were any good why would you be discarding a winner when all you had to do was toss a small red card?

Hopefully North will come to the conclusion that this is Suit Preference for a ♥ return and will play his

Lead: ♠ A

You are East. The bidding has been as shown.

Partner led the ♠ A, dummy played the ♠ 2 and you signal with your ♠ 10. West next plays the ♠ Q and you drop the ♠ 4, completing your doubleton signal. West then plays the ♠ K and it turns out you don't have to ruff after all. So what are you going to play?

Play the ♣ 9.

This should be a clear enough signal for West to play a ♣ to your ♣ A next.

An alternate play, just as good, would be for you to ruff the good ♠ Q and play the ♣ A yourself.

If you don't get your ♣ trick at trick 4 you will never get it. South will discard his ♣ K on North's extra ♦ winner.

South

You are South. The bidding has been as shown.

Partner led the ♣K, dummy's singleton was played

Play the ♣9.

North will look at your ♣9 and perhaps think for an instant that you want him to play another ♣.

But it will be a short instant because a look at dummy makes it absolutely clear to everybody that playing another ♣ could not help your side. Dummy has so many trumps that repeated ♣ leads would do nothing.

OK. If it's not an encouraging Attitude signal, what is it? Suit preference of course. Since it is a high spot card you are asking North to switch to the higher suit (choosing between ♦s and ♥s).

North dutifully plays a ♥ and you take the next three tricks. Had he switched to a ♦ instead, West would have been able to discard one of his ♥ losers on East's ♦Q.
