2NT shows a balanced hand with 8+ points, and when SOUTH then supports ♠s NORTH makes a slam try.

NORTH bids RKC Blackwood 4NT. SOUTH shows two Keycards (two Aces) and NORTH bids 6♠.

NORTH has a decent Limit Raise, and SOUTH tries RKC Blackwood.

NORTH replies to the 4NT bid with 5♦, zero or three Keycards. So which is it, zero or three?

Pretty simple - since SOUTH holds three Keycards himself NORTH can hardly have three also since there are only five total. She must have zero and SOUTH signs off at 5♥.

SOUTH jumps to 4♠, confident that NORTH could make 10 tricks even if he just has 6 points.

NORTH knows he can make more and bids RKCB 4NT.

SOUTH's 5♦ response shows zero or three Keycards. So which is it? Zero or three?

SOUTH bid much too strongly to have no Aces. NORTH bids a confident 6♠, knowing SOUTH has either three Aces or two Aces plus the ♠K.

With eleven cards in the "round" suits SOUTH has a lot of playing strength. So when NORTH bids a Limit Raise in ♥s SOUTH wants to know about Aces.

RKCBlackwood tells him that NORTH has two Aces plus the trump Queen, so SOUTH can see that 6♥ is practically a certainty.

NORTH has interest in slam after she hears SOUTH's Limit Raise. BUT, she should not use Blackwood holding two quick losers in the ♦ suit.

Instead she makes a Control showing bid of 4♣. (Not Gerber since it didn't follow a NT bid.)

SOUTH cooperates by making a Control bid of 4♥.

NORTH stops at 4♠ because neither partner controls ♦s.
