

Stayman and Jacoby Transfers

The Stayman convention is used to find a 4-4 Major suit fit after one partner has opened 1NT or 2NT. Responder bids an artificial 2♣ and the Notrump bidder then bids a 4-card Major if she has one, or 2 or 3 ♦ otherwise.

The Jacoby Transfer convention is used to uncover a 5-3 Major suit fit after one partner has opened 1NT or 2NT. A response of ♦s asks opener to bid ♥s, a response of ♥s asks opener to bid ♠s.

The two conventions complement each other, that's why they are together in this set of practices.

After NORTH opens 2NT, SOUTH is pretty sure there will be a slam in ♥s. But, the contract should be played from the NORTH side so the opening lead doesn't go through any vulnerable ♠ holding NORTH might have.

SOUTH transfers NORTH to ♥s, then uses Blackwood to be sure they aren't off two Aces. Missing one Ace he settles for 6♥.

WEST has an invitational hand, (9 points), after EAST's 1NT opening. With a 4-card ♠ suit she uses Stayman.

EAST then shows his 4-card ♥ suit.

With no ♥ fit, WEST can only invite with 2NT, an invitation which EAST declines.

Because SOUTH holds a 4-card Major suit, (♥s), he starts his responses with Stayman.

NORTH denies holding any 4-card Major suit so SOUTH gives up on ♥s. He next bids ♠s, showing five of them. He jumps to 3♠, giving NORTH the choice between 4♠ or 3NT.

With three trumps NORTH chooses 4♠.

EAST has a poor 9 points, but does have two 4-card Majors. So he uses Stayman.

When WEST bids ♠s, EAST isn't strong enough to bid game herself, so she temporizes with a 3♠ invitation.

WEST has a full 17 points so he accepts the invitation.

SOUTH, with 9 points and a 6-card suit, knows they should play in ♠s. The question is: how high?

SOUTH transfers NORTH to ♠s, then invites by raising to 3♠.

NORTH has only two trumps, (good ones, admittedly), but she has a maximum 17 point hand. So she bids the ♠ game.
