3NT by South

This is standard technique; if your first card holds the trick and you want to continue the suit, play the lowest card in the sequence and partner will know that you have all the ones in between.

South only has 7 winners unless he can establish the ♣ suit, and when you win your ♣K you will also be able to win enough ♥s to set the contract.

Baker OLead 1

[show W]

The bidding has been as shown. The contract is 3NT and it is your lead.

When you have made your choice click NEXT.

[NEXT]

[show NESW]

Lead the ♥K, the top of an honor sequence. Leading an honor sequence is always good strategy against a notrump contract. It is attacking, threatening to set up several winners for you, and there is little risk that you will give away a trick.

South will probably hold up, at least once. If he does, you should continue the suit by next playing the ♥J.

back to partner and get another ruff for down 2.

Declarer would be better off to go up with the ♥A at the first trick and try to pull trumps. This would still not be good enough. You win your ♠A, and lead a ♣ to partner's hand. He can then win his ♥K and lead a third ♥ for you to ruff. Down 1.

Baker OLead 2

[show W]

The bidding has been as shown. The contract is 4 ♠ and it is your lead.

When you have made your choice click NEXT.

[NEXT]

[show NESW]

Lead the ♥2.

Against confident bidding an attacking lead is probably called for and having the Ace of trumps makes a singleton lead a particularly good choice.

If declarer plays low in dummy partner will win the ♥K and give you an immediate ruff. You play a ♣

Lead the ♠4, fourth down in a good suit with broken honors (no sequence).

The only suit you have worth attacking with is your ♠s. Leading fourth down is standard with this type of holding, but it does have some risk. You are hoping to find partner with the ♠Q or, even better, the ♠A.

This time he comes through with the ♠A and your side wins the first 5 tricks for a 1-trick set.

If you had led any card other than a low ♠ declarer would take 10 tricks.

underlead any honors. Against 6NT you have little chance of establishing a suit to win four or five tricks. Instead, you just want to try to not give declarer an undeserved trick.

So any passive lead would be OK, you pick the ♥ just because they are less likely to have an unbid 4-card Major in either hand.

Declarer has 11 winners sitting there; if you had led a low ♠ you would have handed him his 12 trick on a platter.

Lead the ♠ 4.

Against a notrump slam it is best to make a passive lead so you don't give declarer an undeserved winner.

Against a suit slam the situation is very different. Against strong dummy bidding like this you are pretty sure that if you don't establish a winner early declarer will find something in dummy to discard losers on. In this hand it is dummy's ♣ suit.

Your most promising suit is ♠s. Obviously partner has a very weak hand, but if he has the ♠Q you can set up your ♠K before your King of trumps is dislodged.

Without a ♠ lead declarer will have smooth sailing.

Lead the ♥4.

This is a close call. The top of your ♠ honor sequence is very tempting, but even when you find partner with the ♠K you can still only establish three ♠ winners to go with your ♣A. Unfortunately, that's not enough to defeat the contract.

Leading a ♥ from your 5-card suit is riskier, but it has the potential of setting up an additional winner. In this hand, as you see, the ♥ lead gets you 4 ♥ winners to go with your ♣A.

Underleading an Ace against a suit contract is the
 absolute worst opening lead in Bridge. A careful look
 at this hand shows just how bad it can turn out.

And leading from a doubleton in a suit the opponents
 have bid is almost as bad.

So by process of elimination you lead a trump,
 probably the ♥9.

And when South plays ♣s, (preparing to ruff in dummy), you will win and play another trump. Even if South
 guesses the ♠s correctly he will not be able to make the contract.

time while the ♥Q would let declarer make 11 tricks.

Consider this: even if partner has a high ♥ to help you establish the suit it is not very likely that you would be able to get the lead with your entryless hand.

There is another, more subtle, reason for leading partner's suit. If the lead turns out wrong, and the ♥Q lead would have beaten the contract, partner will not blame you in the least. But if you lead the ♥Q and it turns out that a ♠ lead would have let you set the contract, well, that would not be too good for partnership harmony.

Lead the ♥3, fourth highest in an attacking suit.

Sometimes it comes down to just this kind of choice. Do you lead fourth down from ♠ K 8 7 3 or from ♥ Q 10 7 3.

The presence of the ! H10 bolsters the ♥ suit enough to give it the edge.

The suits could be arranged something like shown at left. With a ♠ lead the presence of the ♠T in dummy allows declarer to make a second ♠ trick, which happens to be declarer's ninth trick.

But when you lead the ♥3 it does not promote a ♥ winner for declarer, and left to his own devices, he cannot establish the ♠ winner.
