[show NS] NORTH makes a positive 3♥ response to SOUTH's 2♣ opener. This promises at least 8 points and a 5-card suit with two or more honors.

SOUTH only needs to know one thing - how many Aces in the NORTH hand. A Blackwood 4NT tells her the answer is one, so she bids 6♥.

SOUTH bids 4♣, (Gerber), and NORTH admits to just two Aces.

So SOUTH settles for the small slam.

Blackwood tells her that SOUTH has two Aces. She can see there are 12 tricks available and decides to take a chance that SOUTH will have a thirteenth trick somewhere among his opening hand points.

She bids 7NT.

SOUTH has a 16 points and NORTH has 15, 16 or 17. SOUTH wants to be in 6NT if NORTH has 17, but merely a Notrump game if she has 15 or 16.

The way to find out is to bid 4NT - not Blackwood but merely an invitation to bid 6NT. In this case, NORTH has but 15 points and declines the invitation. If her ♥Q were changed to the ♥A she would bid 6NT and collect her twelve easy tricks.
