You are East. The bidding has been as shown.

Partner led the ♠J, won by dummy's ♠Q. The ♦5 is now played from dummy. What do you play?

When you have made your choice click NEXT.

[choose-card D2] [NEXT]

[show NESW]

[clear-commentary]

Play the ♦2. Considering that South opened 1NT, he must have the ♦Q for this play to make sense.

So if you put on your ♦A, South will have TWO ♦ winners established. If instead you play low, then South cannot get a second ♦ trick and will have to look elsewhere for his ninth trick. As you can see, he is not going to be able to find it.

Play the ♥4, do not split your Honors.

6 ♥ by South

South's bidding showed at least 5 ♥s, so assuming he holds both the ♥ A Q, it would be silly for him to finesse the ♥9 on the first trump play.

As it turns out, when you play low South calls for dummy's ♥K, East's ♥Q falls and you now have 2 trump tricks. If you had played the ♥10 you would have tossed away the setting trick.

When you have made your choice click NEXT.
 [choose-card SJ] [NEXT]

[show NESW]

[clear-commentary]

Play the ♠J (or ♠Q).

You should always make a point count check as soon as you see dummy. South's 2NT promises 20 or 21 points, North has 14 and you have 3; total = 37 or 38. Therefore West must have either 2 or 3 points. He cannot have two Jacks because you can see all four of them. Likewise he cannot have a Queen because you can see three of them and his ♥ lead (top of nothing) denied that Queen.

It follows that West **MUST** have a King, and it must be ♣s or ♦s since he has denied any ♥ Honor.

Since West will definitely win his King, you need to take one trick yourself, and the best way to do that is to split your Honors to establish one ♠ winner.

South has no defense to this, but if you had played low he would have played the ♠T and made the slam.

Play the ♣4.

If you split your Honors, playing the ♣Q perhaps, dummy's ♣A will take the trick and South will later play through your ♣K toward dummy's ♣J 9 5. Played in this way he will establish 3 ♣ winners (which he needs for the contract).

If you play low, he **MIGHT** finesse the ♣J and again establish 3 ♣ winners. But South's correct play would be to put on dummy's ♣9, finessing West for the ♣T. This is because ♣K 10 **or** ♣Q 10 are twice as likely as ♣K Q.

If he does play this way East will win the ♣T and your ♣K Q will get one more trick.

Play the ♣2.

You have a full count on South's hand. He started with 2 ♠s, 7 ♥s, and no ♦s. His other 4 cards must have been ♣s, and he has discarded 2 of them.

So he has 2 ♣s left in his hand. If one of them is the ♣K and you play your ♣A then you have handed him the contract.

By playing low you give him a guess to make. If he plays the ♣K he will make the contract, but if he plays the ♣J he will go down. He will probably play the ♣J, figuring you wouldn't have the nerve to duck with the ♣A. He'll know better next time he plays against you.

[show NESW]

[showcards W:DJ]

You are East. The bidding has been as shown, (wild).

Partner led the ♦J; ♦Q from dummy, ♦K from you and ruffed by South.

South then pulls two rounds of trumps, (West discards on the second one), followed by his ♠Q, dummy's ♠A K and dummy's ♦A. South discards ♣s on the last two cards.

The ♣6 is then played from dummy and you must make a decision - ♣A or ♣2?

Play the ♣ A.

3NT by South

First ask yourself "Where are the ♦ A and ♦ Q?" East doesn't have either one or he would have played it at the first trick. So South has both of them. So with those 3 tricks and the 5 ♥s in dummy South only needs to find one more winner. Assuming he has the ♣ K, (or why play the suit), if you play low he will find that one more winner whichever high ♣ he plays.

Next ask yourself "Where is the ♠ A?" Clearly East **DOES** have this card; otherwise South has his 9 tricks.

So the way to beat the contract is to go up with your ♣ A, then play ♠ K, ♠ Q and a third ♠, hoping East holds ♠ A x x x.

[clear-commentary]

You don't have much in your hand, but you do have the ♦A, and you also have the responsibility to help West set up his suit.

So even though you don't know for sure how good that suit is, your plan of action should be to take the ♦A and return a ♥.

As you see, this will defeat the contract. Had you played a low ♦ South would have pocketed that trick and added 4 ♣s and 3 ♠s to go with the ♥ he had already won.

Play the ♣J.

You should not allow yourself to be misled by South winning the first trick with the ♠Q. East does not hold either the ♠A or the ♠J or he would have played it. South is just trying to be deceptive.

That means you need the next ♠ play to come from East, so you play your ♣J and let East win his ♣A. You can be sure East has the ♣A because South would have played the suit differently if he held the Ace.

East will win the ♣A and return his ♠ through South's ♠ A Q. This allows you to set up your ♠ suit while you still have the ♣K for an entry.

[show NW]

Do not ruff.

Even though South holds the ♠ A, if you ruff now he will just put on a small ♠ and you will be ruffing a loser. Instead discard a ♦.

South will win the ♠ A, but will not be able to ruff any ♠ losers in dummy because your trumps can overruff any of North's trumps.

Suppose you had ruffed the ♠. South would have played his ♠ 9, leaving himself with ♠ A J. He would then get the lead and pull your two remaining trumps. That would leave one trump in dummy to ruff his ♠ J, his only remaining loser.

[show NE]

[showcards W:DQ S:S4,DA W:S2,DQ]

You are East. The bidding has been as shown. Partner led the ♦ Q, you signaled with the ♦ 8 and South won the ♦ A.

South then played low to dummy's ♠ K, and led dummy's ♠ 6. Your decision is not whether to play high or low, but whether to ruff or not, which amounts to the same thing.

Play the ♦ A.

Count the points. South's 15-17 plus North's 11 plus your 10 comes to 36-38. So West has room for an Ace or a King, but no more.

West's second ♠ play was the 2, so it looks like he started with 5 ♠s. And the fall of South's ♠s looks like he may have 1 ♠ left, very likely the ♠K.

All this means that you should take your ♦ A now and return your last ♠ to establish West's suit. Now West's ♦ K will be an entry to the ♠s

If you play low, West will have to take the ♦ K now, and although he can play a ♠ to establish the suit, he will not have an entry to be able to cash them.

Play the ♥ A.

If you followed what South was doing you will realize that he has eliminated both the ♦s and ♣s from both his hand and dummy. If it isn't clear that he is now out of ♣s, just remember the bidding - he must have had 5 ♠s and 4 ♥s.

Suppose you play low on this ♥ (as South hopes you will). Dummy's ♥K will take the trick, and when another ♥ is played you will have to win it with your now bare ♥A. You will then have to play a ♦ or a ♣, giving South a ruff and sluff.

But if you take your ♥A now, then exit with your ♥2, South can win the ♥K but will still have to lose a ♥ to East.

[show NESW]

[showcards W:CQ]

You are West. The bidding has been as shown.

You lead the ♣Q, East plays low and South wins the ♣A.

South pulls trumps in 2 rounds. He then takes the ♦K, ♦Q, ♦A, discarding a ♥ on the last one. Next he plays dummy's last ♣ to his ♣K.

Having done all this, South now plays a low ♥ from his hand. What do you play?

[choose-card H4] [NEXT]

[show NESW]

[clear-commentary]

Play the ♥4.

Remember that South opened 1♥, so he has 5 of them. With only 3 trumps out he has no intention of finessing. Perhaps he led the ♥J just to tempt you to cover in this situation.

If you play low he will win with one of his high ♥s and then you will have a sure ♥ winner. Along with the ♠ winner West has you will defeat the slam.

If you cover the ♥J with your ♥Q South will again win with one of his high ones. But now the position will be clear to South and he will return to dummy and play another ♥, finessing your ♥10. With no trump loser he will make the slam.

[PLAY S:D6]

[clear-commentary]

Play the ♠A.

Even if South doesn't have the ♠K he can establish a ♠ winner just by leading twice toward the ♠ Q J. That winner will take care of whatever black-suit loser he may have.

If East has a ♣ trick it is important to get it established soon. So go up with the ♠A and play a ♣ through dummy's ♣ A Q. When South tries the ♠ suit again **EAST** can win and cash his ♣K for the setting trick.

If you play low on South's ♠ play East will be forced to win the trick and he cannot profitably attack the ♣ suit from his side.

[showcards W:H2 E:HA,H3,DJ S:S3,HK,H6,D6]

You are West. The bidding has been as shown.

You decide a trump lead is called for and lead the ♥2. Your partner wins with the ♥A and plays the ♦J. South lets this go to dummy's ♦K, (but you know he has ♦Q), then plays a trump back to his ♥K, pulling the 2 outstanding trumps from West and East.

South's next play is the ♠3 from his hand. Do you play your ♠A or not?

[showcards W:H3 S:HA,H2 W:H7,H3]

You are East. The bidding has been as shown.

Partner led the ♥3, you play ♥10 and South wins the ♥A. South pulls the last two trumps by leading low to dummy's ♥Q. He now calls for the ♠6. Will you play your ♠A or not?

[clear-commentary]

Play the ♠3.

When a singleton in dummy is led through your Ace it is more often better to play low than to go up with the Ace. Declarer might not even have the King, or he may have the King Jack combination and guess wrong.

Here it works out best to play low even though South has the ♠ K Q 5.

Assume you play your ♠A. South will play his loser, of course, and later will be able to discard two of dummy's ♦s on the ♠ K Q. He can then ruff his two ♦ losers and make the contract.

Now assume you play low. South will play the ♠Q which will win the trick and he will no longer have a ♠ loser. **BUT** - now he will have no way to dispose of the two ♦ losers and will go down 1.

Play the ♥K.

It may look foolish to waste your ♥K but look what will happen if you don't. South will follow up with another ♥ and when you win the ♥K you will be forced to play a minor suit. Since both North and South are out of ♦s and ♣s you will be giving them a ruff-sluff and the contract.

But if you dump your ♥K under South's ♥A look at what's left. South has ♥ losers and when he plays a ♥ from either hand East will scoop up two tricks with his ♥ Q 10.

[showcards W:DJ]

You are West. The bidding has been as shown.

You lead the ♦J and dummy's ♦A wins the first trick. Declarer pulls trumps with dummy's ♠K, then his ♠A. He then plays his ♦K and follows with ♣Q, ♣K and ♣A, discarding a ♥ from his hand on the last.

With all that completed South plays the ♥A. What do you play?
