3NT by North			

[show NS]

After North's 1 ♥ opening South counts 12 HCP plus one length point for the fifth ♦. That is enough for a 2/1 response so South says 2 ♦.

The partnership is now forced to reach game so North bids 2NT. This describes a balanced hand with exactly 5 ♥s and no 4-card ♠ suit.

South is happy to play in Notrump, and with no extra strength above the 13 points already promised, uses Quick Arrival and bids 3NT. North passes and a reasonable game contract is reached.

Notice that you would bid this hand the same way whether or not you play 2/1.

4♥ by North			

[show NS]

North opens 1♥ and South, with 16 points, responds 2♦, forcing the partnership to game.

North has a minimum strength hand, but with a 6-card suit he rebids 2♥.

Opposite North's 6-card suit, South's doubleton is adequate support. If South had a minimum for her 2/1 response she might just jump to 4♥ to show no interest in slam. With a little extra she bids 3♥ since she knows the bidding cannot stop until game is reached. From South's perspective North might have a big hand; his 2-level rebid shows suit length but does not say anything about strength. This is one of the beauties of 2/1, the bidding can be kept low while you look for the best place to play. However, this time North merely bids the game and South passes.

The hand would have been bid the same with or without 2/1.

With 16+ points and 3♥s, South will insist on a ♥ game at a minimum. But there is no need to start making jump bids, she starts with a simple 2♦ bid. North also refrains from a jump, and rebids 2♥ to show the 6-card suit.

South now says 3♥ to set the trump suit. At this point North reveals some slam interest, making a control-showing bid of 4♣. South continues the process, and bids 4♦, showing the ♦A.

North has heard enough. He bids 4NT, and when South admits to two Aces he bids the slam.

North has a minimum 1 ♠ opening bid. After East's 2 ♦ overcall both North and South know that the 2/1 Game Force is no longer on. South can therefore bid 2 ♥, showing at least 11 points. This bid is forcing on North for 1 round, but not forcing to game.

North next rebids his ♠s, promising a 6-card suit, but also indicating a minimum strength hand! Since the Game Force is not on, North would have to make a jump bid to show extra strength.

South has nothing further to say so the partnership arrives in a safe contract.

[show NS]

South opens 1 ♠ and North, with 14 points, responds 2 ♥. Note that North is not permitted to make this bid without a 5-card or longer ♥ suit.

South, knowing that North has 5, bids 3 ♥ to confirm the trump suit.

North has a minimum strength hand with no slam aspirations, so he uses Fast Arrival and bids 4 ♥. South is also satisfied to just play at game.

2/1 is a good bidding method, and here, 4 ♥ is a good contract. But you can see that it is not a laydown - there is no bidding system that will always reach 100% contracts. In this hand a 3-3 ♦ split will provide the 10th trick, or if that fails, taking 2 ♠ finesses provides a 75% chance of success.

not mentioned the suit. South now confirms the trump suit with a 3 ♥ bid, and North shows his minimum by just bidding the game.

[show NS]

North has 13 points and naturally opens 1 ♠.

South, with 15 points, would bid 2 ♥ in standard bidding, but with 2/1 this promises a 5-card suit. So instead, South responds 2 ♣, forcing the partnership to game. Note that holding two 4-card minors South bids them up-the-line, just as in standard bidding.

North has a nice 6-card ♠ suit, so you might think he would rebid them. But Opener's first responsibility with his second bid is to show a 4-card Major if he has one. This isn't much of a suit, but North still bids 2 ♥.

You can see why it is important for Opener to show a 4-card Major. Since South couldn't bid ♥s in her first response the fit would have been lost if North had

3NT by South

North does not have either 6 ♥s or 5 ♠s so he just bids 3NT. Notice that North never once considered the possibility of passing what might be a misfit - the initial 2/1 response unconditionally forced the partnership to reach a game somewhere.

[show NS]

North opens 1♥, his 5-card Major. South, with 14 points, naturally responds 2♦, forcing the partnership to game.

North next bids 2♠, showing the other Major suit. In standard bidding North would not be able to bid the ♠s since that would be a Reverse and North is far too weak to Reverse. But after a 2/1 Response the concept of a Reverse does not apply, and the priority of showing a 4-card Major certainly does apply.

South assumes North to be 4-5 in the Majors, so she cannot support either. She bids 2NT. If North actually has 6 ♥s (or 5 ♠s) he will rebid the suit. South's 2NT bid guarantees a stopper in the fourth suit.

North opens 1 ♠, his 5-card Major. South, with 14 points, responds 2 ♣, a 2/1 force to game.

North next bids 2 ♥, showing the other Major suit.

South assumes North to be 5-4 in the Majors, so she cannot support either. She cannot bid 2NT without a stopper in ♦s. So South bids the fourth suit, 3 ♦, telling North she knows she must make a bid, but can't find anything appropriate.

North now must find a bid. His choices include rebidding the 5-card ♠s, supporting South's ♣s with a doubleton Queen, or bidding 3NT with the ♦ K 6 as a stopper. He chooses this last option. It appears that 3NT is the best game for these two hands.

finesse.

[show NS]

South opens 1 ♠, her 5-card Major and North responds 2 ♥. South knows this is a 5-card suit, and bids 3 ♥, confirming the 8+card trump fit.

Once the trump fit is known, North revalues his hand to about 19 points. He makes a slam try with a control-showing bid of 3 ♠. He knows South won't take this as ♠ support since the partnership has agreed that ♥s are going to be trumps.

South now shows her control by bidding 4 ♣.

That was what North needed to hear; when Blackwood uncovers two Aces he bids 6 ♥.

The slam is a good one. If either the ♠Q or ♣K is right there are 12 tricks by way of a finesse. But the best way to play the hand would be to try to establish a ♠ in the South hand, and if that fails try the ♣

6♥ by South

This is a good slam, cold if West makes any opening lead other than a ♣. With a ♣ lead, South will have to pull trumps and play to discard a loser on the ♠T.

[show NS]

North opens 1♠. South has a powerhouse, plenty strong enough to jump-shift. But playing 2/1 it's usually simpler when you make the 2/1 response, and save your jumping for later - if at all. So South bids just 2♥, knowing North must keep the bidding open.

North knows South has at least 5♥s, so his first priority is to agree on the trump suit. He bids 3♥.

South now makes the slam try. She knows North has at least three trumps, and all she wants to find out is how many Aces/Kings North holds. So she bids Blackwood and North confesses to two Aces.

Still hoping for the Grand, South bids 5NT. Oops, North doesn't have any kings so South settles for a small slam.

4 ♠ by South

Notice that South did not fall into the Blackwood trap. If she HAD asked for Aces, North would have shown one Ace and South wouldn't know what to do next. She might have figured the odds favored that one Ace being a red one and tried the slam. Moral: Don't use Blackwood when you have a void.

[show NS]

South opens 1 ♠. North responds 2 ♦, a 2/1 force to game.

South has a big hand, perhaps in the slam range, but first priority is to set a trump suit. So she contents herself with a rebid of 2 ♠. North agrees on trumps by bidding 3 ♠ (not Fast Arrival).

South now makes her slam try by using a Control-showing cue-bid. She bids 4 ♣, showing first round control of the suit (Ace or Void).

North's next bid would be a control-showing bid of her own - IF SHE HAD ONE. Since she cannot win the first round of either red suit she just returns to 4 ♠. South realizes that they are off two red Aces and passes.

2 ♠ by North			

[show NS]

North opens 1 ♠. With 9 points and a doubleton ♠ South must respond 1NT.

In standard bidding North would happily pass a 1NT response. But in 2/1 the 1NT response is forcing for 1 round. North is forced to bid a 3-card minor so he says 2 ♣.

South prefers ♣ over ♠ but must allow for the possibility that North has bid a 3-card suit. So South gives a preference to 2 ♠. This is called a "false preference", but it assures the team of being in at least a 7-card fit.

North happily passes and the pair lands in a reasonable contract, probably better than 1NT.

will bid 7NT. When South shows just one North settles for 6 ♥. This should be a good slam, needing only a decent ♠ break.

[show NS]

South opens 1 ♠. North has a mountain, but there is seldom a need to jump-shift when using 2/1. He bids 2 ♥.

South's priority on her first rebid is to agree trumps if possible. Knowing North has at least a 5-card suit, she bids 3 ♥.

North naturally feels slammish, and shows it with a control-showing cue-bid, 4 ♣. Do not even **THINK** this might be Gerber.

South doesn't have any extra strength, but that doesn't matter. With South making a slam try she should cooperate by showing her ♦ control. It is important to realize that South isn't showing any extra strength, she is merely going along with North.

North asks for Aces and gets two. He decides to find out about Kings, if South happens to have three he

[show NS]

North opens 1 ♠. With 11 points South cannot respond 2 ♣. So she bids 1NT, which is forcing for 1 round.

North's first priority is to show a 4-card ♥ suit. Since he doesn't have one his next priority is to rebid the 6-card ♠s.

South is strong enough to invite, and with the known 8-card fit she says 3 ♠.

North has a little extra so he bids 4 ♠, which is a pretty good contract.

[show NS]

North opens 1 ♠. Perhaps a little marginal, but you don't pass 13 point hands. South has a good 2/1 response of 2 ♣.

North's first priority is to show a 4-card ♥ suit, so he does. South wouldn't dare support ♥s with only three cards, but has a good 2NT bid.

North is not happy in notrump so rebids the 6-card major, 3 ♠. South's two ♠s are enough support so she bids the ♠ game.

3 ♠ by South			

[show NS]

South opens 1 ♠. North cannot say 2 ♥ because he only has 11 points, and also because he only has 4 ♥s. So he bids 1NT (forcing for 1 round).

South rebids 2 ♣, a 3-card suit. North now jumps to 3 ♠, showing limit-raise strength. This sequence is the way to show a limit-raise with only 3 trumps; an immediate jump-raise to the 3-level shows a limit-raise with 4 trumps.

In any case South has a bare minimum and passes the invitation.
