Your 3♥ bid showed 11-12 points. Decide how you would answer partner's Blackwood 4NT, then click on **BID** above.

The Blackwood response for 1 Ace is 5♦. Partner evidently was hoping for 2, and he signs off at 5♥. He is the Captain so you pass.

Your 1NT bid showed 15-17 points and a balanced hand. Decide how you would answer partner's Gerber 4♣, then click on **BID** above.

The Gerber response to show 2 Aces is 4♠. So you bid 4♠ and partner jumps to 6NT, which you pass.

Very interesting! If partner's 1NT bid happens to include 3 Aces and one King you can count 13 tricks! So you bid 4♣, definitely Gerber following the 1NT opening. Partner answers 4♥. What do you say next?

You almost refuse to believe it! How can partner have a 1NT opener with only 1 Ace? But you trust your partner so you bid 4NT. Everybody passes and you stare in amazement at partner's 16 points.

Wouldn't it have been funny if partner had thought your 4♣ bid was Stayman? And so his 4♥ bid would have been showing a suit. And then your 4NT bid would have been Blackwood. And then he would have answered 5♦ and you would have passed and made it!

With a 20 point balanced hand you open 2NT. What do you rebid after partner jumps to 4♣?

The 4♣ bid is Gerber and your correct response with 2 Aces is 4♠. Partner now bids 6NT and since he is the Captain you pass.

6♥ by North

Partner opens a Weak 2-bid and catches you with a blockbuster. The only thing you want to know about his hand now is how many Aces he has. So you bid 4NT. Partner answers 5♥.

That makes it simple, with 2 Aces you bid a confident 6♥. If he had 1 Ace you would have bid an also confident 5♥. If he had zero Aces you would have been in a spot of trouble. And if he had 3 Aces you would have asked him how he could open a Weak-2 with that many points.
