You open 1 ♥. As expected, partner responds 1 ♠.

This is easy bidding so far. You bid your second 5-card suit, 2 ♣.

Partner says 2 ♦.

Partner's bid is FSF. He wants to know if you have 3 ♠s, (you don't), or if you can stop ♦s, (you can't). So you have to rebid one of your 5-carders, and you should bid the lower-ranking one. You bid 3 ♣ and partner raises to 5 ♣.

You have 15 points and you respond 1♠. Partner rebids 2♦. What do you say next?

You would love to play 4♠ if partner has 3♠s. Or, you would love partner to play 3NT if he has ♣s stopped.

So you say 3♣ (FSF) to find out if either possibility exists. Partner does have ♣s stopped and bids 3NT.

With both 4-card minors you open 1♦. Partner responds 1♠.

You cannot bid 2♥ since you are not strong enough to reverse, so you bid 2♣.

Partner jumps to 3♥.

Since partner jumped this is **NOT** FSF. Partner has a ♥ suit and a pretty good hand to go with it. You also have a ♥ suit so you bid 4♥.

You have a totally square 13 points. Still, you don't want to ignore a 4-card ♠ suit so you respond 1 ♠. Partner rebids 2 ♦. What do you say next?

You COULD bid 3 ♣, FSF, to find out if partner has a ♣ stopper but that would be pointless. You already know of an 8-card ♥ fit so you say 4 ♥.

With both 4-card minors you open 1♦. Partner responds 1♠.

You cannot support ♠s with only 3 of them. Instead you bid 2♣. Partner says 2♥.

This is FSF, asking you to further describe your hand, and you have a problem. You do have a ♥ stopper so you COULD bid 2NT. You also have 3 ♠s so you COULD bid 2♠. Either way might turn out best, but that ♥K looks pretty lonesome so you choose 2♠ and partner raises to 4♠.
