Since there has not been a clear agreement on the trump suit you can assume it is ♥s, the last bid suit.

So you have two Key-Cards (♠A and ♥K, along with the ♥Q). You therefore bid 5♠ and partner bids 6♥.

Partner's jump to 4 ♠ indicates he is prepared to play at game even if you have as few as 6 points. So he must have 20 points or so. With your 14 that puts you in slam range.

Despite your conviction that this hand is going to slam you should **NOT** ask for Key-Cards holding a worthless doubleton. Instead, you make a slam try by bidding your cheapest control, 5 ♣. Partner says 5 ♥. What is your next bid?

You can only say 5 ♠. Partner would have control-bid ♦ s if he held the Ace since controls are bid up-the-line. His failure to show it means he doesn't have it. Since you might be off the first two ♦ tricks you stop at 5 ♠.

Yes, partner should probably have opened 2NT. Sometimes partners don't make the bids you think

Your partnership plays Jacoby 2NT convention, so partner's 2NT shows a game-forcing raise in ♠s. Your 3NT bid indicates a 5-card suit and "extra values". Partner's 4♥ is a control-bid showing the ♥A.

What you need to know now about partner's hand is Key-Cards so you bid 4NT. He answers 5♠. What is your bid?

Partner's response says 2 Key-Cards and the ♠Q. So you are missing either the trump King or the ♦A. So you shouldn't bid 7, but you will almost surely make 6. You bid 6♠.

Partner's 3♦ bid shows a very good hand with probable slam interest. It is very tempting to say 3NT now but you don't have ♥s stopped and don't know if partner does. So with good ♦ support you bid 4♦. Partner bids 4NT. What is your response?

You have 2 Key-Cards, the ♠A and ♦K. But you don't have the ♦Q so you answer 5♥. Partner bids 6♦.

6♥ by East
good idea so you say 6♥.

Your partner's 3♥ is a limit-raise, 11-12 points with ♥ support.

What you want to know is whether partner holds the ♠A. If you bid 4NT and he shows two Key-Cards all will be well, you will know they are the two missing Aces. But if he shows just 1 Key-Card you will be in the soup since you can't tell if that Key-Card is the useful ♠A or the practically useless ♦A. So you don't use RKCB, you use control-showing and bid 4♣. Partner says 4♥.

Partner would have control-bid ♦s if he had the Ace. You may not think that helps but it does since now you can bid RKCB. You bid 4NT and he answers 5♣. What is your next bid?

It was a lot of work but you have figured out that partner holds 11-12 points including one Key-Card which must be the ♠A. It looks like the slam is a
