It may be tempting to open 1 ♥, planning on Reversing in ♠ at your second turn to show your big hand.

Don't. A Reverse should always show an unbalanced hand with the first suit longer. So you open 1 ♠ and partner replies 2 ♠.

If you had opened 1 ♥ partner would have replied 1NT. Then when you Reversed with 2 ♠ he would have assumed you had a 4-card ♠ suit and would probably have put you back in ♥s, your known 5-card suit.

Things would have gotten confusing, to say the least.

You would really love to pass. You have a terrible hand and you like the ♦s better than the ♣s.

But you are forced to bid. And since partner has 5 ♣s and only 4 ♦s, you should take him back to his first suit.

Mercifully he passes.

When partner shows 17+ points with his Reverse you are sure you belong in game. Since he did not support your ♠s you know he doesn't have four of them. You also know you have an 8-card fit in ♦s, but surely nine tricks in Notrump will be easier than eleven in ♦s.

With 17 points you have a perfect hand for a Reverse. So you bid 2♦. Partner then says 3♣.

Partner's return to your ♣ suit shows he has fewer than 9 points. Although it is possible to devise a hand for him where your side could make 3NT, the risk is too great.

So you pass. It's a good thing, too.

You have 7 points, and basically nothing but s♥.

You must make a minimum bid, and the only reasonable one is 2♥. Despite his 17 points, partner passes.
