You treat partner's 1NT Overcall the same as a 1NT Opening. You use Stayman and bid 2 ♣. Partner replies 2 ♥. What is your next bid?

You have 9 points, an invitational strength hand. You bid 3 ♥, inviting partner to go to game with a maximum. He declines your invitation.

You have a sound 2-level overcall. You bid 2 ♣ and partner replies 2 ♠. What is your next bid?

Partner's cue-bid obviously forces you to bid.

Partner's hand might be very distributional, but rather than just sticking to ♣s you suggest with 2NT. This guarantees you have ♠s stopped. Partner likes your suggestion and bids 3NT.

The bidding has been as shown.

Balanced hand, poor support for partner's suit, stoppers in their suit and 13 points. You couldn't get a better hand to jump to 2NT. Partner takes you to 3NT.

With a good 6-card suit and 10 points you make a Weak Jump Overcall to 2 ♦. Partner says 2NT.

The 2NT bid is a standard response to a Weak 2-bid. It asks for the identification of any outside high-card if the Weak 2-bidder has more than a minimum. Here you are in the top range for your bid so you show your ♥K.

That was apparently the missing link for partner, he now says 3NT.

You might just try 4♠. Of course if partner has a minimum Weak Jump Overcall that will get you much too high. A better approach is to ask for more information from partner. The bid that asks is 2NT. Partner replies 3♦.

Partner's 3♦ bid tells you two things. One, he is in the top half of his 6-11 point range. Two, he has a high card (Ace or King) in ♦s. When you construct a hand for him which contains 6 pretty good ♠s and the ♦A you come up with a hand which will probably make game. Bid 4♠.
