[showcards W:DJ]

You are West. The bidding has been as shown, (wild).

Partner led the ♦J; ♦Q from dummy, ♦K from you and ruffed by North.

North then pulls two rounds of trumps, (East discards on the second one), followed by his ♠Q, dummy's ♠A K and dummy's ♦A. North discards ♣s on the last two cards.

with 2 ♠s, 7 ♥s, and no ♦s. His other 4 cards must have been ♣s, and he has discarded 2 of them.

The ♣6 is then played from dummy and you must make a decision - ♣A or ♣2?

Play the ♣2.

You have a full count on North's hand. He started

So he has 2 ♣s left in his hand. If one of them is the ♣K and you play your ♣A then you have handed him the contract.

By playing low you give him a guess to make. If he plays the ♣K he will make the contract, but if he plays the ♣J he will go down. He will probably play the ♣J, figuring you wouldn't have the nerve to duck with the ♣A. He'll know better next time he plays against you.

DOES have this card; otherwise East has his 9 tricks.

[showcards S:C9]

You are South. The bidding has been as shown.

You lead the ♦5; ♦3, ♦10 and won by East with ♦K. East now leads the ♣9 from his hand

Play the ♣A.

First ask yourself "Where are the ♦A and ♦Q?" North doesn't have either one or he would have played it at the first trick. So East has both of them. So with those 3 tricks and the 5 ♥s in dummy East only needs to find one more winner. Assuming he has the ♣K, (or why play the suit), if you play low he will find that one more winner whichever high ♣ he plays.

Next ask yourself "Where is the ♠A?" Clearly North

So the way to beat the contract is to go up with your ♣A, then play ♠K, ♠Q and a third ♠, hoping North holds ♠A x x x.

[showcards N:DT]

You are East. The bidding has been as shown.

Partner led the ♥4, won by South's ♥8.

South enters dummy with the ♠K and leads the ♦10. What do you play?

Play the ♦A.

You don't have much in your hand, but you do have the ♦A, and you also have the responsibility to help West set up his suit.

So even though you don't know for sure how good that suit is, your plan of action should be to take the ♦A and return a ♥.

As you see, this will defeat the contract. Had you played a low ♦ South would have pocketed that trick and added 4 ♣s and 3 ♠s to go with the ♥ he had already won.

♣A. You can be sure South has the ♣A because West would have played the suit differently if he held the Ace.

[showcards S:C6]

You are North. The bidding has been as shown.

You lead the ♠7; ♠3, ♠2 and won by West with ♠Q.

West then plays the ♣6 from his hand. Which ♣ should you play?

Play the ♣J.

You should not allow yourself to be misled by West winning the first trick with the ♠Q. South does not hold either the ♠A or the ♠J or he would have played it. West is just trying to be deceptive.

That means you need the next ♠ play to come from South, so you play your ♣J and let South win his

South will win the ♣A and return his ♠ through West's ♠ A Q. This allows you to set up your ♠ suit while you still have the ♣K for an entry.

 overruff any of South's trumps.

[showcards N:S6]

You are West. The bidding has been as shown.
 Partner led the ♦ Q, you signaled with the ♦ 8 and
 North won the ♦ A.

North then played low to dummy's ♠ K, and led
 dummy's ♠ 6. Your decision is not whether to play
 high or low, but whether to ruff or not, which
 amounts to the same thing.

Do not ruff.

Even though North holds the ♠ A, if you ruff now he
 will just put on a small ♠ and you will be ruffing a
 loser. Instead discard a ♦.

North will win the ♠ A, but will not be able to ruff
 any ♠ losers in dummy because your trumps can

Suppose you had ruffed the ♠. North would have played his ♠ 9, leaving himself with ♠ A J. He would then get the lead and pull your two remaining trumps. That would leave one trump in dummy to ruff his ♠ J, his only remaining loser.

[showcards S:H4]

You are South. The bidding has been as shown.

You lead the ♣K and continue with the ♣J then ♣Q, taken by East's ♣A. To trick 4 East plays the ♥4. What do you play?

Play the ♥Q.

To see why you should play the ♥Q, just visualize the result if you play low. East will finesse with dummy's ♥8. If North wins his ♥J on this trick there will be 4 good ♥ tricks in dummy. If North withholds his ♥J then Declarer will have 3 ♥ winners.

Now visualize the result of playing the ♥Q. Whether
