With 11 points and a beautiful 6-card suit this is the perfect hand for a Weak-2 opener. So you open 2♦. Partner responds 2NT.

Partner's 2NT bid is a standard response to a Weak 2-bid. You are expected to rebid your suit if you have a minimum (6-8 point) hand. Otherwise you are to bid an outside suit in which you hold a high card - this is called "showing a feature". And the final possibility is this one, where you have a solid suit, either A K Q x x x or A K J 10 x x. In this case you bid 3NT.

South plays 3NT. West leads ♠J. East plays ♠K.

**South plays 3NT. West leads ♠J. East plays ♠K.**

Winner count: ♠ 2 : ♥ 1 : ♦ 3 : ♣ 1 : Total = 7

The ♠ lead assures you of two tricks in the suit. So you only need to create two more. If the ♦s split 3-2 (likely) you could get 3 extra tricks there. But there's a danger - if they split 4-1 you wouldn't have an entry to them. Well, you wouldn't have an entry unless you **DUCKED** the first ♦. Then a 4-1 split wouldn't prevent you from making 5 ♦ winners.

So you win the ♠A and lead the ♦3, planning to duck.

**West shows out.**

Make **PLAN B**, then

So you win the ♠A and lead the ♦3, planning to duck.

**West shows out.**

That's tough. No matter how you play them you can only get 3 ♦ winners. So you must turn elsewhere - elsewhere being the ♣ suit.

Win the ♦Q but don't play another ♦ yet, you need an entry back to dummy later. Instead, lead the ♣2 and finesse your ♣10. West will win with one of the high ♣s and probably return a ♠. You may as well take the ♠Q now. Play your ♦8 to dummy's ♦K, cash the ♦A, then play the ♣4, finessing your ♣J. Fortunately this wins and when you cash your ♣A both defenders follow. The rest of your clubs are good and you make an overtrick.

Sometimes you have to change your plan.

When the ♦s turned out to be 5-0 you had to get lucky. Your back-up Plan wasn't likely to work - it required the missing ♣ honors to be split, but also required a 3-3 ♣ split, not a likely outcome.

But there was no other choice so you have to try it.

may over-ruff this, but only with a trump trick he was going to win anyway.

You will lose two ♦s and the ♥Q but no more.

It is tempting to ruff the first ♠ with dummy's ♥9, hoping to sneak that through then ruff the second one with ♥K.

The problem is that East would have over-ruffed the ♥9 and then played another ♥ and you would not have gotten to ruff either ♠,

You open 1 ♥, West overcalls 1 ♠ and partner passes.

You shouldn't let West steal from you so you will bid your ♥s again. You must decide between 2 ♥ and 3 ♥. Given that partner might have had a pretty decent hand yet still have to pass, you decide to go with 3 ♥. Partner bids 4 ♥.

South plays 4 ♥. West leads the ♠Q.

**South plays 4 ♥. West leads the ♠Q.**

Losers: ♠ 2 : ♥ 1 : ♦ 2 : ♣ 0 : Total = 5

Win the ♠K, then enter dummy with the ♣A and play another ♠ toward your ♠A. You do this to prevent East ruffing your high ♠. Next you lead the ♠2 and ruff with dummy's ♥K. Ruff a ♣ to get back to your hand and ruff the ♠7 with dummy's ♥9. East

4♥ by South

You might consider setting up dummy's ♠ suit for a discard but there are too few entries to make that work.

More promising is playing East to have at least one of the ♦ honors and taking two finesses in that suit. **BUT**, entries are still a problem. You can only reach dummy twice, once with the ♣A and once with the ♥Q, and you must play ♦s each time you are there.

Win the first trick with the ♣A and play the ♦J, letting it ride if East doesn't cover. West will win this trick and take two ♣s. He will probably then lead a ♠. You win your ♠A, play ♥A then a small ♥ to dummy's ♥Q. Now lead a ♦ and finesse with your ♦9. When this wins, pull trumps and claim.

Taking two finesses in ♦s will be successful whenever East holds the ♦K **OR** the ♦Q **OR** both the ♦K Q.

This will happen about 75% of the time, so the double finesse is a good Plan. And on this Deal it was the only plan available.

You respond 1♠, your 5-card Major. Partner jumps to 3♥.

Make your next bid.

Partner is showing 16-18 points and you have 9. Since he rebid ♥s he must have at least six of them you you know there is an 8-card fit. You bid 4♥.

North would play 4♥.

plays ♣8 then ♣2.

Losers: ♠ 0 : ♥ 0 : ♦ 1 : ♣ 3 : Total = 4

Suppose you discard a ♦ from dummy. If East doesn't ruff this ♣10 then your ♣Q will win. You could then try to establish dummy's ♦Q to discard your fourth ♣ on.

But you know that plan won't work because East **IS** going to ruff this ♣ if you discard. You only have one chance to make this contract, and that is the chance that East was not dealt the ♥J. So you ruff with dummy's ♥10 and pray East doesn't over-ruff.

The prayer was answered, East did not hold the ♥J.

So you won that trick and still had your ♣Q to use after you pulled trumps.

You respond with your 5-card Major, 1 ♠.

Partner jumps to 3 ♥.

With partner's 16-18 points you probably have enough strength for game.

With partner's six ♥s you have an 8-card fit.

So you bid 4 ♥.

North would play 4 ♥.
