SOUTH has 17 points and might open 1NT. But with the 5-card Major suit she prefers to open 1♠.

NORTH has excellent ♠ support but with 11 points is not quite strong enough to insist on reaching game. Instead he makes an invitational jump to 3♠, which SOUTH is strong enough to raise to game.

SOUTH has a powerful hand, but 21 points is not strong enough to start with a forcing 2♣ bid. Since he has balanced distribution he opens 2NT (20-21 points).

NORTH adds her 6 points to SOUTH's minimum and concludes they should be in game. She expects her good ♦ suit to be useful to NORTH in Notrump so she bids 3NT.

NORTH has a solid 1♥ opening, 14 points and five trumps.

SOUTH must respond with 8 points, but cannot bid either minor suit since he needs at least 11 points to bid a new suit at the 2-level. So he bids 1NT (6-10 points).

NORTH doesn't object to Notrump so she passes.

SOUTH has a normal 1♠ opening bid, 14 points and five trumps.

NORTH has good 4-card support and 7 points, so she raises to 2♠, passed by SOUTH.

NORTH does not consider showing the ♥s, first because she knows there is a ♠ fit, and second because she doesn't have the 11 points needed to bid a new suit at the 2-level.

6NT by South			

With balanced distribution and 16 points SOUTH should open 1NT rather than 1♦.

NORTH's response is based on simple math. He adds his 18 points to the 15 minimum that SOUTH has announced and comes up with 33 points combined. This is enough for a small slam, and since he has balanced distribution he bids 6NT.

♣ Q 9 8 5

NORTH is right at the maximum for a 1♠ opening bid - one more point and he would have opened 2♣.

SOUTH does not have 3-card ♠ support but with 7 points must make some response. She cannot bid at the 2-level so she says 1NT (6-10 points).

NORTH is fine with Notrump so he bids 3NT.
