6♥ by North
Lead: ♦6

You dealt this hand.

This is a big hand. But not quite enough to open 2♣. So you open 1♥ and partner responds 3♥. Now what?

You might bid 4♦ as a slam try, but it is probably just as well to go ahead and ask for Aces. So you bid 4NT and partner owns up to holding 2 Aces. What is your next bid?

You have all the Aces but don't go crazy. Partner only has 11-12 points so don't think too Grand! Bid 6♥.

The bidding has been as shown.

With 6 points you must respond and you should let partner know you have support for his suit. So you bid 2♥ and he promptly raises to 4♥. It's a good thing he had 20 points isn't it.

The bidding has been as shown.

When you have a weak, distributional hand with 5 of partner's suit an immediate jump to game is usually the best approach. If he has a good hand you will probably make the contract. If he is minimum then you might get a preemptive effect and stop your LHO from entering the bidding.

This is a good example. Partner may be lucky and make 4♥. But if they had had an opportunity to compete the opponents might well be able to make 4♠.

The bidding has been as shown.

You can't support partner's ♥s with only 2 of them so you bid your nice ♠ suit. Partner then jumps to 3♥. Now

Here's where a lot of players go wrong. Since they only promised 4 ♠s with their first response they think they should now rebid them to show partner they had 5. And this **MIGHT** work if it turns out partner has 3 ♠s. Not only is this a risky bid, it is unnecessary. When partner jump rebid ♥s he showed 16-18 points and 6 ♥s. So you know of an 8-card fit and you know you should be in game. Bid 4♥.

6♠ by North
Lead: ♥Q

The bidding has been as shown.

As soon as partner opens 1♠ you know you will settle for nothing less than the ♠ game. The problem with bidding 4♠ right now is that partner will take you for the "weak-distributional-with-five-trumps" hand. So you temporize by first bidding 2♣. Partner rebids 2♦.

You now jump to 4♠, completing the picture of an opening hand with good ♠ support. Partner bids 4NT. What say you?

This is Blackwood so you answer 5♦ for one Ace. Partner says 6♠.
