All Pass			

3NT by North
Lead: ♠2

North is to play 3NT. East leads the ♠2, dummy plays the ♠4 and West the ♠J.

East plays low.

West wins with the ♦J.

Winners: ♠=2 ♥=2 ♦=1 ♣=2 Total = 7

You need two more winners and dummy's ♦suit is your only hope. **IF** ♦s split 3-2 and **IF** the defenders don't take too many winners in their suit(s) you can establish ♦s by ducking twice.

Win the first ♠. If you hold up they might pocket the ♠ trick and switch to another suit where you only have two stoppers.

Next play a small ♦ from each hand. Win the return (probably a ♠) and duck a second ♦.

If the defenders can only take 2 ♠ tricks now you are home-free since dummy's 3 ♦s are now established.

You had to have the defender's ♠s split 4-3. But in fact you were pretty sure they were going to do so. Since East's ♠2 was probably his fourth-down then he couldn't have a fifth-down.

3NT by South
Lead: ♠2

North's 3♦ bid was a transfer to ♥s. South is to play 3NT. West leads the ♠2.

East plays the ♠J and you win with the ♠K.

West plays low.

East plays low too.

West plays low.

East holds up his ♥A again.

Winners: ♠=2 ♥=0 ♦=2 ♣=1 Total = 5

Obviously you need to establish 4 ♥ winners and by driving out the ♥A you can manage that handily. The problem is that dummy has only one sure entry, (the ♠A), and the defenders may be good enough to hold up their ♥A twice.

To assure the contract you should win the first trick in your hand with the ♠K. Then play ♥Q, ♥J overtaking with dummy's ♥K so you can continue establishing the suit while you still have that ♠ entry.

None of the other suits were sitting well so overtaking the ♥ was the way to go.

6♠ by North
Lead: ♥K

North is to play 6♠. East leads the ♥K, dummy plays the ♥5 and West the ♥3.

You win the ♥A and draw trumps with the ♠K and ♠Q.

East plays low.

Losers: ♠=0 ♥=1 ♦=1 ♣=0 Total = 2

One of the two red losers must be discarded on dummy's ♣ suit. So you pull trumps, taking two rounds, with ♠K and ♠Q. Then play two top ♣s and ruff a ♣. When East shows out on the third ♣, enter dummy with a trump and ruff another ♣. Dummy's final ♣ is now established, so enter dummy with another trump and discard one of the red losers on the fifth ♣.

As long as the ♣s were no worse than 4-2 you can establish the suit.

West	*North*	*East*	*South*
			1NT
All Pass			

1NT by South
Lead: ♦6

South is to play 1NT. West leads the ♦6, taken by East with the ♦J. East next plays the ♦Q on which West plays the ♦2. East plays the ♦9 which you finally win.

Winners: ♠=0 ♥=2 ♦=1 ♣=3 Total = 6

You only need one more winner and you have several possibilities. The ♥ finesse might work, or the ♣s might split 3-3. But you need to consider the defenders winners also. They have already scored 2 ♦ tricks and will get 2 more as soon as they gain the lead. (The spot cards told you that West has a 5-card ♦ suit.) Plus they have the 2 top ♠s which they can take whenever they like. So if your play sets up just one more trick for them you will go down.

No, you must establish ♠s, the suit where they have 2 winners anyway. So you play a ♠ which West wins. He takes his 2 ♦s but you are now home free. When you gain the lead again you will get your ♠ winner established and only lose 2 ♠s and 4 ♦s.

If you finessed the ♥ you would have gone down with the defenders winning 4 ♦s, 1 ♥ and 2 ♠s.

If you had played 3 rounds of ♣s you would have gone down with the defenders winning 4 ♦s, 1 ♣ and 2 ♠s.

Only by establishing ♠s can you make the contract.
