SOUTH's 3♠ supporting bid is enough to convince NORTH to make a slam try.

NORTH bids Blackwood 4NT. If SOUTH shows one Ace NORTH plans to bid 6♠, but when SOUTH bids 5♣ NORTH settles for 5♠

6♥ by East
Lead: ♣A

EAST makes a positive 3♥ response to WEST's 2♣ opener. This promises at least 8 points and a 5-card suit with two or more honors.

WEST only needs to know one thing - how many Aces in the EAST hand. A Blackwood 4NT tells her the answer is one, so she bids 6♥.

6NT by South

When SOUTH opens 1NT, point-count alone tells NORTH that 6NT can surely be made. SOUTH is bound to hold at least two Aces. But NORTH doesn't want to miss a Grand slam.

NORTH bids 4♣, (Gerber), and SOUTH admits to just two Aces.

So NORTH settles for the small slam.

7NT by West
Lead: ♣Q

WEST has a powerhouse and knows she will reach a slam somewhere. When EAST supports the ♠s, it seems she has found her spot.

Blackwood tells her that EAST has two Aces. She can see there are 12 tricks available and decides to take a chance that EAST will have a thirteenth trick somewhere among his opening hand points.

She bids 7NT.

SOUTH is tempted to go right to 6♥ when she hears NORTH's positive response. BUT, she should use Blackwood first.

It's good thing she did because NORTH admits to only one Ace - they are missing two Aces.

6NT by East

WEST not only has 20 points, he also has a lot of winners. So when EAST jumps to 2NT, showing 13-15 points, WEST uses Gerber.

EAST shows two Aces so WEST decides 6NT will be just right.
