3NT by South

Lead: ♦ K

South is to play 3NT. West leads the ♦ K, dummy plays the ♦ 2 and East the ♦ 4.

Winners: ♠=4 ♥=0 ♦=1 ♣=1 Total = 6

You need 3 more winners, and they must come from the ♥ suit. The danger is that when you knock out the ♥ A, West may take too many ♦ s.

West continues with the ♦ Q; dummy plays the ♦ 6 and East the ♦ 7.

West continues with the ♦ J; dummy discards the ♣ 3 and East plays the ♦ 9.

You held up your ♦ A until the third round to exhaust East of ♦ s.

Next you start on ♥ s by playing ♥ K, then overtaking the ♥ 10. Assume that East wins the second ♥.

You were fortunate it was East who took the ♥ A, and that he has no ♦ to return. If he plays a ♥ or a ♠ you will win in dummy. If he plays a ♣ you will jump up with the ♣ A and take your winners, 9 in all.

You were lucky the ♥ A was with East.

But if you had not held-up your ♦ A even good luck wouldn't have helped you.

1NT

South is to play 3NT. West leads the ♠ K.

East follows with the ♠ 3 and you play the ♠ 2.

Winners: ♠=1 ♥=2 ♦=0 ♣=2 Total = 5

Even if ♥s split 3-3 you could only get 2 extra winners there, so it should be clear that you must establish the ♦s. You will have to drive out the ♦ A and hope they don't win too many ♠s at that time.

West continues with the ♠ Q.

East follows with the ♠ 4 and you play the ♠ 8. West continues with the ♠ J.

East follows with the ♠ 9 and you discard the ♣ 3. Holding up the ♠ A until the third round helps your chances.

Having just taken the third ♠ trick you now work on ♦s by first playing the ♦ K, then continuing the suit. East wins the third one with his ♦ A. And now the good news - he has no ♠ left to reach his partner's good tricks. So East plays the ♥ Q.

At this point in the play you have three tricks in the bank; ♠ A, ♦ K, ♦ Q. You take your ♥ K, cash the two good ♦s, then lead to dummy for the ♣ A K and ♥ A. Voila!

You were lucky that East had the ♦ A since he only had 3 ♠s.

But what if East actually held 4 ♠s? No problem, in that case the ♠s would have split 4-4 so the defenders could only win 3 ♠ tricks and the ♦ A.

The hold-up lets you make the contract whenever East holds the ♦ A. And if West happened to hold the ♦ A??? You go down.

♦K.

It's too bad the finesse didn't work, but it's not too too bad! Because East is out of ♠s and must lead one of the other suits. You don't care which he leads because you can now win 8 more tricks and make your contract.

As long as you were going to finesse into East you could establish the ♦s without allowing West to gain the lead.

And as long as you had held up on the ♠K until the third round you could ensure that East was out of ♠s if he had started with only 3.

South is to play 3NT. West leads the ♠3. East wins the first trick with the ♠A and returns the ♠8.

West plays the ♠Q and dummy the ♠10.

Winners: ♠=1 ♥=2 ♦=1 ♣=3 Total = 7

You can win 3 more ♦ tricks if the finesse works, but even if it doesn't work you can still get the 2 that you need. Of course if East does win the ♦K it would sure be great if he had no ♠ to lead.

West continues with the ♠J; dummy discards a ♥ and East plays the ♠6.

You ducked the second ♠ and took your ♠K on the third round.

After winning the ♠K you are conveniently in your hand, so you play the ♦Q and let it ride when West plays a low card. Alas, East takes the trick with his

South is to play 3NT. West leads the ♦ K, dummy plays the ♦ 2 and East the ♦ 6.

Winners: ♠=3 ♥=2 ♦=1 ♣=0 Total = 6

You will need some ♣ tricks to make the contract. If West has 5 ♦s and also the ♣A then you will go down. It doesn't matter if he has the ♣Q because you can finesse him out of that.

But in the case where East has both the ♣ A Q you need to make sure he has no ♦ when he takes his first trick.

West continues with the ♦ Q; dummy plays the ♦ 5 and East the ♦ 9.

West continues with the ♦ J; dummy plays the ♦ 7 and East the ♦ 10.

You held up the ♦ A until the third round, everybody following.

Now start on the ♣s. Play your ♣9 and let it ride. East wins the ♣Q and returns a ♠. Good, he didn't have the fourth ♦.

Win with dummy's ♠Q and force out the ♣A.

The rest of the tricks are yours, nine in all.

If East had only held 2 ♦s it would have been OK to hold up your ♦ A just once.

But with this layout you needed to hold up twice.
