When you have a weak, distributional hand with 5 of partner's suit an immediate jump to game is usually the best approach. If he has a good hand you will probably make the contract. If he is minimum then you might get a preemptive effect and stop your LHO from entering the bidding.

This is a good example. Partner may be lucky and make 4 ♥. But if they had had an opportunity to compete the opponents might well be able to make 4 ♠.

You can't support partner's ♥s with only 2 of them so you bid your nice ♠ suit. Partner then jumps to 3♥. Now

Here's where a lot of players go wrong. Since they only promised 4 ♠s with their first response they think they should now rebid them to show partner they had 5. And this **MIGHT** work if it turns out partner has 3 ♠s. Not only is this a risky bid, it is unnecessary. When partner jump rebid ♥s he showed 16-18 points and 6 ♥s. So you know of an 8-card fit and you know you should be in game. Bid 4♥.

As soon as partner opens 1 ♠ you know you will settle for nothing less than the ♠ game. The problem with bidding 4 ♠ right now is that partner will take you for the "weak-distributional-with-five-trumps" hand. So you temporize by first bidding 2 ♣. Partner rebids 2 ♦.

You now jump to 4 ♠, completing the picture of an opening hand with good ♠ support. Partner bids 4NT. What say you?

This is Blackwood so you answer 5 ♦ for one Ace. Partner says 6 ♠.

You could bid 1♠. Many would do so, thinking "I have to show partner my ♠ suit."

In fact, you don't have to show partner your ♠ suit. You already know of a partnership 9-card fit in ♥s, so there is no reason to search for a possible 8-card fit in ♠s.

With 11 points and 4 trumps you bid 3♥, a limit raise. Partner raises to game.

The bidding has been as shown.

You **MIGHT** jump to 2NT to "show your points".

However, a notrump bid now would deny a 4-card ♠ suit. Instead, your priority is to show that Major, so you respond 1 ♠. Partner bids 2 ♠. What do you say next?

Partner would not support a response which might be 4 cards unless he had 4 himself. Knowing that you have two opening hands facing each other, each containing 4 ♠s, you bid the ♠ game.

The bidding has been as shown.

With 4-card support you respond 2 ♠. Partner raises to 3 ♠. What do you say next?

Partner's bid is an invitation. You have told him you have 6-10 points and he probably has about 17-18. If you are at the high end of your 6-10 he wants you to bid game, at the low end he wants you to pass. You actually have 10, definitely high end, so you bid 4 ♠.
