South opens 1♠. You respond 2♦, a 2/1 force to game. Partner rebids 2♥, showing a 4-card side suit.

You don't have 4♥s, nor do you have have 3♠s. You do, however, have stoppers in ♣s so you bid 2NT. South happily says 3NT.

3NT by South			

South opens 1 ♠. How do you respond? You bid 2 ♦, a 2/1 force to game. South rebids 2 ♥, showing a 4-card heart suit.

You don't have 4 ♥s, nor do you have 3 ♠s.

Furthermore, you don't have stoppers in ♣s so you cannot bid NT. Since you have to keep bidding, but have no reasonable bid you can make, you bid the fourth suit, 3 ♣.

Compare this Deal with Deal 21.

South understands that North's ♣ bid is

Fourth-Suit-Forcing, and does not actually show ♣s.

However since South does have a ♣ stopper he bids 3NT. In this case this turns out to be the best game contract.

South passes - what should you open? South now bids 2♦. Since South originally passed this is **NOT** 2/1 Game Force. Instead, it is non-forcing and shows 11 or more points. You should show your 4-card ♥ suit. South gives a preference to 2♠. What do you do now?

Knowing that South does not have opening strength you pass 2♠.

South opens 1♠. With 9 points and a doubleton ♠ you must respond 1NT. Partner rebids 2♣.

North prefers ♣ over ♠ but must allow for the possibility that South has bid a 3-card suit. So North gives a preference to 2♠. This is called a "false preference", but it assures the team of being in at least a 7-card fit. South happily passes and the pair lands in a reasonable contract, probably better than 1NT.

6♥ by North

How do you start the bidding? You opens 1♠.

Partner bids 2♥. Your priority on your first rebid is to agree trumps if possible. Knowing North has at least a 5-card suit, you raise to 3♥. You are in a Game Forcing auction, so you know partner will continue bidding. North now bids 4♣. [4D] North's 4♣ bid shows first or second round control in clubs, and shows slam interest. You cooperate by bidding your next control up suit order - 4♦. This doesn't promise extra values, it's just following partner's path. North asks for keycards using 1430. What is your reply? You show two keycards without the trump queen. Partner is excited about this and bids 5NT - what's your bid now? Partner's 5NT is asking for specific kings. Since we don't have any kings lower than the trump suit, we have to bid 6♥. and gets two. He decides to find out about Kings, if South happens to have three he will bid 7NT. When South shows just one North settles for 6♥. This should be a good slam, needing only a decent ♠ break.
