Partner's double promises 4 cards in at least one of the Majors. You certainly hope it is ♥s. You bid 2 ♥ and partner raises to 3 ♥.

Once partner confirms he has the ♥s you can revalue your hand to 17 points. This gives you enough extra to accept partner's invitation. You bid 4 ♥.

You have the special hand, 4-4 in the Majors, so you make a Negative Double. Partner replies 1 ♠.

Partner has a minimum opener with 4 ♠s. You have a minimum response with 4 ♠s. Pass and be grateful the opponents aren't bidding.

Sometimes using Negative Doubles seems like you can read minds. You know for sure that partner has 4 ♠s since that is the only unbid Major. You know for sure that partner has 10+ points because he made a Negative Double of a 2-level overcall. So you conclude that your side has 8 ♠s and 27+ points and you bid 4 ♠.

The general guideline for a Negative Double when both Majors are unbid is that you must have 4+ cards in at least **ONE** of the Majors. But for this specific sequence, 1♣ - 1♦, you do not double unless you have **BOTH** Majors. When you have only one of them you just bid it. Like this hand. You bid 1♠. Partner rebids 1NT.

Partner has a minimum hand and fewer than 4 ♠s. A good time for you to pass.

Partner has 10+ points, a ♠ suit and fewer than 3 ♥s. Doesn't this look like the perfect hand to pass for penalties? Yes.

This is one of the nicer parts of Negative Doubles. When the bidding is 1♣ - 1♦, a double by you promises both Majors. It's like you are allowed to bid both suits at once, 1♠♥. So you double and partner says 1NT.

Partner doesn't have 4 of either Major. But he does have 13 points and ♦s stopped. You also have 13 points so you bid 3NT.
