3NT by North then try to run the ♣Q.			

Not today. Partner takes the ♣K and returns his ♥2 to your four winners.

[showcards W:H8]

The bidding has been as shown. Partner led the ♥8, dummy played the ♥J

Play the ♥9. North played dummy's ♥J to tempt you to cover. Don't fall for it.

Partner's lead of a high spot card shows no honors in the suit. That added to the fact that North bid Notrump after you had mentioned ♥s is pretty good evidence that North holds at least ♥Q x x.

To maintain communication with partner your best hope is to duck the first ♥, but to signal encouragement with the ♥9.

North wins the first trick easily, but must try to establish ♣s. He will enter dummy with the ♠A,

1NT with either 5-4-2-2 or 5-4-3-1 distribution.

[showcards W:C9]

The bidding has been as shown. Partner led the ♣9, dummy played the ♣T

Play the ♣6.

Partner's ♣9 is likely from a short suit. If it is a singleton, you should take the ♣A immediately and return the suit for a ruff. If it is a doubleton, you should NOT take your ♣A now, but should hope partner can get the lead and play his second ♣ to your Ace so you can give him the ruff.

You can figure out which it is.

If it is a singleton, then East must hold 5 ♣s. But you know East has 4 ♠s, so if he also has 5 ♣s then he only has 4 red cards, and he would not have opened

So partner's ♣9 is not a singleton, and you should wait. Declarer then runs dummy's ♠Q. Partner wins the ♠K, returns his OTHER ♣ to your ♣A, and NOW you give him the ruff. He takes the ♦A for down 1.

♥s to enter dummy and he will never get to enjoy those two ♣ winners.

[showcards W:HT]

The bidding has been as shown. Partner led the ♥10, dummy played the ♥J

Play the ♥6.

Declarer gets two ♥ winners whether you play one of your honors on this trick or not. So why does it matter what you do?

Suppose you cover with your ♥Q. South will win his ♥A, then play ♣s until your ♣A is forced out on the third round. He can then force an entry to dummy in the ♥ suit to reach the two ♣ winners.

Now suppose you duck the ♥J. Again South will push ♣s, and again you hold up until the third round. Ahh, what a difference. Now declarer cannot use the

contract could no longer be beaten.

[showcards W:SQ]

The bidding has been as shown. Partner led the ♠Q, a low card was played from dummy,

Play the ♠K.

It seems that perhaps you should play low and let partner's ♠Q force out West's ♠A. Then, when you get the lead with a high ♣ you can force out West's ♠J. Get the lead with your other high ♣ and set the contract with ♠s.

Suppose you try that. Play low on the first ♠. West will also play low and North will be left holding the trick, and also holding the bag! With no more ♠s North will have to play one of the other three suits, and that is just what West wants to have happen. The

Now do it the right way. Play your ♠K on partner's ♠Q. Assume West takes the trick, although it doesn't matter whether he wins the first one or holds up. When you win your first ♣ drive out West's ♠J. When you win your second ♣ trick your ♠s will be good. If you overtake the first trick the contract can no longer be made.

Notice that West will always make two ♠ tricks, so your overtake costs nothing.

3NT by North

East (your wonderful partner) will win the first ♣ and return his final ♠ to dummy's ♠ A.

North will have to keep working on ♣s, but now you can win the ♣A and play your ♠K, dropping North's ♠Q, and your other three good ♠s.

Just like the previous deal, North gets two ♠ tricks either way, but one way he makes an overtrick, the other way he goes down 2.

[showcards W:S9]

The bidding has been as shown. Partner led the ♠9, dummy played the ♠6

Play the ♠8 (to signal encouragement).

You could easily win the ♠K, then play a small ♠ to drive out dummy's ♠A. But North bid Notrump over your 2 ♠ overcall, so he surely holds ♠ Q J 10. So when you get the lead with your one ♣A entry you can establish your ♠s, but you won't get into the lead to cash them.

Look what happens when you duck the first trick. North will win the trick with his ♠T, and start on dummy's ♣ suit.

next two ♠s, then leads a third ♠ for you to ruff. Down 1.

[showcards W:CK]

The bidding has been as shown. Partner led the ♣K, dummy played low

Overtake partner's ♣K with the ♣A.

You are pretty sure partner would not have supported your ♣s unless he had 4 of them, which means it is very likely that East has a singleton. (he might even be void)

So if you are to set this contract partner is going to have to have some ♠ winners. It might not matter, but it also might be vital that the first ♠ lead comes from your side of the table so after you overtake with the ♣A you switch to the ♠7.

Partner loves it - whatever East does South takes the
