NORTH has a perfect 1NT opener; a balanced hand with 16 points.

SOUTH has 7 points; he knows that the most points the partnership could hold is 24 (7 + 17).

Since this is below the 26 point game requirement he passes.

16 points and balanced distribution.

With 12 points, WEST knows the partnership total is between 27 and 29, enough for game

The partnership has at least 29 points (14 + 15).

The partnership has at most 31 points (14 + 17).

With 9 points WEST is unable to decide the final contract. If EAST has 17 points then the partnership

should be playing 3NT. If EAST opened with just 15 points then 3NT will be too high..

So WEST makes the temporizing bid of 2NT. This tells EAST that he must make the final call - go on to

game if he has maximum, pass if he has minimum. On this Deal EAST has 17 points so he bids 3NT.

SOUTH has 9 points. He bids 2NT, asking NORTH to pass if she has 15 or bid 3NT if she has 17.
